CAREER HIGHLIGHTS

Innovative Leadership: Led software projects that consistently exceeded client expectations.

Effective Mentorship: Leverage military experience to mentor junior engineers, translating technical skills into cohesive team success.

Agile Transition: Demonstrated rapid learning and agile project management through career transition.

SKILLS

- ✓ JavaScript
- ✓ C#
- ✓ .NET
- ✓ React
- ✓ REST Api Development
- ✓ SQL
- ✓ MongoDB
- ✓ CI / CD
- ✓ Agile / Scrum
- ✓ Azure / AWS
- ✓ Tailwind CSS

EDUCATION

BS in Computer Science – Software Development
Salem University
2020 - Present

EXPERIENCE

Senior Full Stack Software Engineer

Letter B LLC | 2022 – 2023

Led software development from inception to delivery for multiple applications with 10,000+ users.

- Spearheaded end-to-end software development initiatives, exceeding client expectations.
- Directed the implementation of a machine learning algorithm for content filtering.
- Proactively managed project lifecycles, resulting in project completion 10% ahead of schedule.

Full Stack Software Engineer

Rosehip | 2021 – 2022

Contributed to the design and development of complex software solutions, showcasing a deep understanding of coding principles and software architecture.

- Engineered intricate React components, elevating user engagement by implementing front-end features.
- Leveraged React proficiency to create visually striking UI components, amplifying user interaction by 25%.
- Orchestrated a comprehensive web application, curtailing user onboarding time by 50% within 3 months.

Junior Full Stack Software Engineer

Trainsquare | 2020 – 2021

Demonstrated aptitude for rapid learning and adapting to new technologies, supporting the development team's success.

- Contributed to the implementation of CI/CD pipelines, reducing release cycles by 30%, while maintaining stability.
- Championed the integration of Postman into the development workflow, expediting API testing and validation processes, reducing bug reports by 20%.

Non-Commissioned Officer / Aviation Maintenance Technician

United States Marine Corps | 2014 – 2018

Led and supervised teams, contributed to unit effectiveness in dynamic and demanding environments.

- Directed and supervised aviation maintenance teams, overseeing intricate aircraft systems' diagnostics and repairs, showcasing leadership and technical expertise.
- Led training programs for junior personnel, fostering a culture of continuous learning and skill development
